
Hulu Launches Updated Live Guide

By Charlie Moran, Senior Product Manager

Finding something to watch on Live TV is now easier and faster than ever. Today, we are thrilled to share that one of our most requested features, a new and improved Live TV Guide, is rolling out on Roku® devices and tvOS. The guide is also available on Hulu.com.

Our viewers with Hulu + Live TV will now be able to use the updated live guide and new live collections to:

- Access a full two-week grid guide that lets viewers see what's ahead, record upcoming shows, movies, and games in advance, and channel surf to their heart's content.
- Add channels to "My Channels" that allows for access to their favorite channels and programs directly from Home and the Live Guide
- Easily find recommended TV shows and movies that are airing on live TV right now from Home.
- Browse live content collections to quickly jump to sports, news, movies, and kids content that's live right now and coming up in the future.

Viewers can access the new live guide through the "Live TV" icon on their Hulu homepage. [Hulu + Live TV](#) is currently supported on Hulu.com, Roku devices, tvOS, Amazon Fire TV devices, Amazon's Echo Show, Xbox One, iOS and Android mobile devices, select Android TVs, Nintendo Switch, select LG and Samsung TVs, VIZIO SmartCast TVs, Windows 10, and Chromecast. We'll be rolling out our updated Live Guide to more devices soon. For more details on how we built our Live Guide for Hulu.com, please visit [our tech blog](#). *Roku is a registered trademark and Roku TV is a trademark of Roku, Inc. in the U.S. and in other countries.*
